Text formatting

Some text *this is italic* and **this is bold**. If you have some `code` or `commands`

Create a new paragraph/line by leaving an empty line like above of by leaving two spaces at the end of previous line.

Lists

list

- item1
  - subitem1 item2
  - subitem2.1
  - subitem2.2

Numbered list

1. item 1
2. item 2

- subitem2.1
- subitem2.1

Terminal or shell

```
> none -v
```

gray background

```
This is some text
```

Code snippets

JavaScript

```javascript
const number = 12;

if (number > 10) {
  console.log("greater than 10");
}
```

html

```html
<html>
  <head></head>
  <body>
    <h1>This is a test</h1>
  </body>
</html>
```

css

```css
h1 {
  color: blue;
}
```

json

```json
{
  "firstname": "Leila",
  "lastname": "John"
}
```
